Professional Summary

Senior QA Automation Engineer with 13+ years of experience in manual testing, automation testing, API validation, and enterprise application quality assurance. Expertise in Selenium WebDriver, Playwright, Java, API automation, CI/CD integration, and scalable automation framework development. Proven track record of leading QA teams, improving test stability, reducing regression effort, and delivering high-quality software solutions across multiple domains.

Technical Skills

- **Automation Testing:** Selenium WebDriver, Playwright, TestNG, Automation Framework Development, Self-Healing Automation
- **API Testing:** REST API Testing, API Automation, Postman, REST Assured
- **Programming Languages:** Java, JavaScript, TypeScript
- **CI/CD & DevOps:** Azure CI, GitHub Actions, Jenkins, Git
- **Testing Types:** Functional Testing, Regression Testing, Smoke Testing, UI Testing, Cross-Browser Testing
- **Tools & Platforms:** Maven, JIRA, SQL, Applitools

Professional Experience

CHETU INDIA PVT LTD | Senior Quality Analyst | Dec 2016 – Present

- Led QA team of 8 engineers across multiple enterprise projects.
- Developed scalable Selenium automation frameworks for enterprise web applications.
- Designed automation strategies to improve regression testing efficiency.
- Collaborated with stakeholders for requirement analysis and release planning.
- Conducted API testing and end-to-end validation for enterprise systems.
- Integrated automation testing practices within CI/CD workflows.
- Mentored junior QA engineers and reviewed automation scripts.

NERDAPPLABS SOFTWARE SOLUTIONS PVT LTD | Software Test Engineer | Dec 2015 – Dec 2016

- Developed and maintained test cases based on business requirements.
- Performed smoke, regression, and functional testing.
- Participated in defect lifecycle management and bug reporting.
- Validated applications against customer requirements and design specifications.

ECIFM SOLUTIONS INDIA PVT LTD | Software Engineer | Mar 2013 – Nov 2015

- Worked on Android application testing and backend validation.
- Designed SQL databases for seamless application integration.
- Participated in rapid development cycles and feature validation.
- Developed well-tested and maintainable software solutions.

Automation Projects

- **Playwright UI Automation Framework:** Built scalable Playwright framework using Page Object Model, reusable utilities, and reporting mechanisms.
- **Playwright API Automation:** Developed API automation suite with request/response validations and authentication handling.
- **Selenium Java Framework:** Built enterprise automation framework using Selenium, TestNG, Maven, and reporting utilities.

Education

- B.Tech in Information Technology – Radha Govind Engineering College
- Intermediate – Darshan Academy
- High School – St. Thomas Eng. Medium School
